

Dreams, The Journey of the Soul, & The Spirit of Guidance

易

What amazing times we live in! And we were born to be here now. Each of us has a place in the momentous events taking place. Our dreams can help us to understand why we are here and what we are to do, and give us strength and inspiration to carry out our mission.

And so also with the Oracles. If we allow the Spirit of Guidance to speak to us through them, wonderful and often surprising wisdom and insight come to us.

In this retreat, we will explore dreams together; each dream told becomes a dream within each participant, and we all benefit from the work. We will interweave this work with enrichment from the Tarot and the I Ching.
